

SHUVO RONJON DAS

Electrical Engineer with skills in Power Electronics, Instrumentation, Power Systems, and Solar System Design, seeking an internship in Operation, Maintenance, or R&D.

Roorkee, Uttarakhand, India | +919762238188 | iamsrdas00@gmail.com , shuvo_rd@ee.iitr.ac.in | [LinkedIn](#)

CAREER OBJECTIVE

Pursuing M.Tech in Electric Vehicle Technology with strong expertise in MS office, Instrumentation, Power Systems, Power Electronics, Electric Drives and AutoCAD Electrical. Seeking an internship opportunity in Operation, Maintenance, or R&D in a reputed company. Eager to apply engineering fundamentals and hands-on project experience to support system operations, process improvement, and technical innovation.

EDUCATION

Master of Technology in Electrical Engineering (Electric Vehicle Technology) Indian Institute of Technology Roorkee, Uttarakhand, India	July 2026 - Present
B.Sc in Electrical & Electronic Engineering Jashore University of Science and Technology (JUST), Bangladesh CGPA: 3.48/4.00	Feb 2022 – Mar 2026
Higher Secondary Certificate (HSC), Science Sylhet Government College, Sylhet GPA: 5.00/5.00	2020

CORE COMPETENCIES

• Power Systems & Electrical Equipment • Solar System Design (PVSyst) • AutoCAD Electrical • Machine Learning & Python • Power Electronics • Electric Drives • Data Analysis • Six Sigma • Documentation • Process Maintenance & Operations • Team Collaboration & Communication • Production and Process Improvement

WORK EXPERIENCE

Trainee Engineer, Production <i>PRAN RFL Group, RFL Industrial Park, Kaliganj, Gazipur, Bangladesh</i>	May 2026 – July 2026
- Supervised Injection Molding Machine operations, collect daily production data and ensure proper documentation. - Understand the production process and Identify point for improvement to increase efficiency and reduce production costs.	
Assistant Manager, Hall Dining <i>Munshi Meherullah Hall, Jashore University of Science and Technology</i>	Nov 2024-Apr 2025
- Supervised dining operations for 700+ residents, ensuring timely meal preparation, service quality, and hygiene standards. - Managed inventory and supplier relationships to reduce costs and minimise waste; coordinated with hall management to address resident feedback.	

ACADEMIC PROJECTS

- IoT-Based Overload Protection System in Electrical Networks using Arduino — Lab project under Switchgear & Protection Sessional Course.
- IoT-Based Adaptive Cruise Control for a Miniature Car using Arduino — Lab project under Control System Sessional Course.
- IoT Based Smart ECG Monitoring and Diagnostic System — Undergraduate Third Year Project, Presented on EEE Projects Exhibition (January, 2025), JUST

CERTIFICATIONS & TRAINING

- Machine Learning with Python (80 hrs) — Enhancing Digital Governance & Economy Project, CSE Dept., JUST (2024-25)
- Industrial Training on Electrical Engineering & Instrumentation — Training Institute of Chemical Industries (TICI), Narshingdi, Bangladesh (12 days, 2025)
- Training on Solar System Planning, Design, Installation and Operation for Engineering Students— Daffodil International University, Dhaka, Bangladesh (15 April, 2026 – 27 April, 2026)

VOLUNTEERING & ACTIVITIES

- Member, JUST Rotaract Club — Participated in community service and social development initiatives.
- Conference Volunteer — Attended and assisted in organising multiple academic and professional conferences.

AWARDS

- International Postgraduate Scholar at Indian Institute of Technology Roorkee July 2026 - Present
Indian Council for Cultural Relations (ICCR), Ministry of Ext. Affairs, Govt. of India
- 1st Runner-up at Ansys SCADE Student Challenge 2026, Indian Institute of Technology Roorkee

TECHNICAL SKILLS

- **Electrical & Design:** AutoCAD Electrical, PVSyst, MATLAB, Ansys SCADE, Ansys Motor CAD, MultiSIM, Proteus, ModelSIM
- **Programming & Data:** Python, Machine Learning, IoT (Arduino), Data Analysis, SQL
- **Office & Tools:** MS Office Suite (Word, Excel, PowerPoint)
- **Languages:** Bengali (Native), English (Fluent), Hindi (Conversational)
